telkom international
conference 2024

POST EVENT REPORT

What is BATIC?

BATIC, which stands for Bali Annual Telkom International Conference, is an annual international telecommunication event organized by Telin. This conference serves as Telin's contribution to the telecommunications community, providing a platform for information exchange and discussions on industry developments. It is renowned as a hub for market updates, exchanges, and conferences, enriched with the authentic culture of Indonesia and held in Bali.

We extend a warm welcome to our global and domestic partners, including major wholesale carriers, data centers, OTTs, content companies, analysts, vendors, and regulators. This would be a fantastic opportunity to partner up with Telin and strengthen your presence within the global telecom community.
